

ROTTEN

*Hypnotized
by a thorough study
numbness of Reason*

*Paralyzed
by your fears
Subconscious' ordeal*

*Your demons there
(a) blessing and (a) curse were
upward push, downward rush*

*Blaze in the night
against that bleak daylight
duffers tell, slaves write*

- - - - -

*Schedule for addiction
adrift in inventories*

*User-guides to a no solution
endorphin-made laboratories*

*Self-gratification
to justify your weakness*

*Mental immolation
to climb up to your sadness*

*White-cloaked
He appears*

*Mourning of fog
numbs his words to me*

*Dream within a dream
briers over breeze*

*You take him amiss
you're too slow, he's so fucking quick*

*Evanescent
idleness is*

*Your repentance
now he's gone while you're still here*
